God's peace, brothers and sisters.

After a few years since the Immanuel center project began, we can state with gratitude to God that we already own two plots of land with an area of 991 m² in the city of Trebišov.

In this way, we want to pay attention to all the supporters who contributed to this common success and progress with your important share.

In the next phase, we want to prepare a study and a project for construction and start the actual construction of the Immanuel Center.

Our vision is to fulfill the needs of our own space, where we could achieve the desired results in a deeper way in the field of liberation and healing of people with various psychosomatic, physical and spiritual difficulties.

Until today, the service of Immanuel, n.o. it took place in many places in Slovakia and moved abroad in person as well as online.

We can once again state with gratitude that during more than 10 years of service, there are experienced colleagues who already have a share in a specific service, but there are also many other people who become our potential colleagues.

Currently, the service is running in several places in Slovakia, such as Bratislava, Prievidza, Košice and Trebišov.

In the Immanuel center, we plan to organize the following and other activities:

1. Seminars, conferences, spiritual counseling courses.
2. Multi-day stays with the aim of more intensive service for registered participants.
3. Concentrations and training of servants from graduates of courses Immanuel, n.o.
4. Prayer meetings - thematic, group, 24/7, etc.
5. Regular meetings of the local church.
6. Concerts of prayers and praises connected with the service of Immanuel, n.o.
7. Camps with the possibility of affordable accommodation within the city and its surroundings.
8. Immanuel Office, n.o.
9. Humanitarian and spiritual assistance to people affected by the war in Ukraine and cooperation with the church in Ukraine on joint projects and spiritual activities.

In the photos below, you can see those lots as well as the demolished building, which will however be used for the renovation project to build the Immanuel Center.

For the next steps, we need help in the field of financial security. So, we want to appeal to you in this way, so that you join us in the service of building the kingdom of God by providing an amount from your means that our Lord Jesus Christ will put on your heart.
